Subject: The Change document with unruly bullets

 Class III Permit Changes from 2nd Draft to Final.docx

Hi Kate,

Here is the link to the "Change" document with the misbehaving number bullets I mentioned. I got to page 17 at the comment "Begin updating numbers here."

I think I freaked the system out because of all the bullet numbers related to the permit sections inserted in between. I tried to turn off the auto bullet for those. The auto number was fine until I tried to insert a new bullet in the early 30s.

Thanks for taking a look at this!
